EXPERIENCE

Software Developer

[Flux IT](#) | January 2021 - Present

- Converted a bunch of React class components to functional components
- Refactored some components that were using jQuery under the hood to work totally in the React way
- Wrote an API to generate data that was consumed by the front end to display graphs
- Implemented custom scroll behavior by modifying an existing pinch-to-zoom library as per project need

SIDE PROJECTS

Meme Gallery

[Website](#) | [Github Repo](#) > [Front End](#) | [Back End](#)

Built with the MERN stack to upload/view memes, images.

Users can save memes by pasting an URL / upload from the device, and can see upload statistics for the last 7 days in a chart, and can delete memes / images in a single click. Includes lazy image loading.

Shortify - URL Shortener

[Website](#) | [Github Repo](#) > [Front End](#) | [Back End](#)

Intuitively easy to use URL shortener with beautiful UI and animations.

Front end built with React.js and back end built with Node.js, Express and MongoDB. Back end implemented by following the REST API and MVC conventions.

Chess Game

[Github Repo](#)

Implemented a simple chess game that can be played on the console/terminal.
